# MATERIAL SAFETY DATA SHEETS <br> SHOOTER'S CHOICE FP-10 LUBRICANT ELITE 

## Section 1: PRODUCT AND COMPANY INFORMATION

Product Name: FP-10 Lubricant Elite ${ }^{\text {TM }}$
Intended Use(s): Firearm and weapon systems lubricant, cleaner and preservative
Manufacturer: Ventco, Inc. 15050 Berkshire Ind. Pkwy. Middlefield, OH 44062

Information Telephone Number: 440-834-8888
Emergency Contact/Chemtrec: 800-424-9300
International Chemtrec: 703-527-3887
Print Date: 08-23-12 Revision Date: 05-20-2009

## Section 2: HAZARDS IDENTIFICATION

|  | Emergency Overview |
| :--- | :--- |
| Appearance and Odor: | Light amber, low viscosity liquid. Mild cinnamon and petroleum odor. |
| Health Hazards: | CAUTION! May cause eye and skin irritation. May be harmful if swallowed. |
|  | Aspiration hazard if swallowed - can enter lungs and cause damage. |
| Safety Hazards: | WARNING! Slipping hazard if spilled. |

Potential Health Hazards: See Section 11 for more information.
Likely Routes of Exposure: Skin, eyes, inhalation.
Inhalation: This product is not expected to pose an inhalation risk where exposure limits are observed. Heating or other mechanical actions can generate oil mist, fumes or vapors that may cause respiratory tract irritation, dizziness, headaches or nausea.
Ingestion: Swallowing can cause generalized depression, headache, throat irritation, drowsiness, nausea, diarrhea, or vomiting. Vomiting may cause aspiration
into the lungs with a risk of chemical pneumonitis.
skin which may result in drons and skin, which may result in dryness, redness, itching, and cracking of the skin (dermatitis).
Eye Contact: May cause eye irritation, resulting in redness or burning. Prolonged or
Medical Conditions
Aggravated by Exposure: Eye or skin diseases; respiratory/lung diseases if mist/vapor is generated. Target Organs:
Other Hazards:
None known.
Spillages may be slippery. Do not walk through spilled material.
Potential Environmental Effects: See Section 12 for more information.
Analysis for ecological effects has not been conducted on this product. However, if spilled, plants and animals may experience harmful effects when coated with petroleum-based products.
Other Information:
This product does not contain any carcinogens as iisted by OSHA, IARC or NTP.

## Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

OSHA Hazardous Components

| Component | CAS No. | $\%$ by Wt. | Carcinogen |
| :--- | :--- | :--- | :--- |
| Highly refined mineral oil | $64742-52-5$ | $70-84 \%$ | No |
| Petroleum hydrocarbons | Proprietary* | $20-29 \%$ | No |
| Corrosion inhibitor | N/A - mixture* | $<5 \%$ | No |
| Antiwear extreme-pressure oil additive | N/A - mixture* | $<3 \%$ | No |

Additional Information: *The specific chemical identity is being withheld as a trade secret. This component contains no carcinogens, mutagens or toxic substances.

## Section 4: FIRST AID MEASURES

| Eye Contact: | Immediately flush with water for at least 15 minutes while holding eyelids open. Remove <br> contact lenses if worn. Get medical attention if irritation persists. |
| :--- | :--- |
| Skin Contact: $\quad$Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. <br> Get medical attention if irritation develops and persists. Wash clothing and clean shoes <br> before reuse. |  |
| Inhalation: | Remove person to fresh air. If not breathing, give artificial respiration. If breathing is <br> difficult, give oxygen. Get medical attention immediately. |
| Ingestion: | Do NOT induce vomiting. If vomiting occurs, have person lean forward with head below <br> hips to prevent aspiration into the lungs. Call a physician or poison control center. Never <br> give anything by mouth to an unconscious person. |

Note to Physicians: Treat symptomatically.
Additional Advice: None

## Section 5: FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Use water spray, water fog, dry chemical, foam, carbon dioxide, earth or sand.

Unsuitable Extinguishing Media:
Products of Combustion:
Firefighter Protection:
Additional Advice:

Do not use a forced stream of water as this may cause fire to spread.
Carbon dioxide, carbon monoxide, unidentified organic compounds, smoke and irritating vapors.
Water and foam may cause frothing. Wear full protective clothing and selfcontained breathing apparatus.
Use waterspray to disperse vapors and keep adjacent containers cools.

## Section 6: ÁCCIDENTÂL RELEASE MEASURES

\(\left.$$
\begin{array}{ll}\text { Personal Precautions: } & \begin{array}{l}\text { Eliminate all ignition sources. Evacuate personnel to a safe area. Use } \\
\text { appropriate personal protective equipment. Ventilate area if spilled in confined } \\
\text { space or other poorly ventilated areas. Warning: Spillages may be slippery. Do } \\
\text { not walk through spilled material. }\end{array}
$$ <br>
Environmental Precautions: <br>
Contain spill to prevent environmental contamination. Keep from entering <br>

drains, sewers, waterways or soil.\end{array}\right]\)| Stop the spill or leak if possible without personal risk. Absorb with sand, earth |
| :--- |
| or other inert material. |

Handling: Keep away from heat, sparks and flame. Avoid contact with eyes. Avoid prolonged skin contact. If aerosolizing, misting or heating product, do not breath vapor, fumes or mist. Use adequate ventilation if concentrations exceed permissible exposure limits. Wash hands thoroughly after handling and before eating or drinking. Launder contaminated clothing before reuse. Avoid elevated temperatures to prevent product degradation. Do not discharge into drains or the environment. Keep containers closed when not in use. Empty container contains product residue which may exhibit hazards of product.
Storage: Do not store in temperatures exceeding 104 deg. F ( 40 deg. C) or in direct sunlight. Keep containers closed and dry. Store in a cool, dry place. Store away from heat, sparks, open flame and oxidizing materials.
Additional Advice: Expected storage life under recommended conditions is 2 years.

## Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limìts

| Material | OSHA-PEL | ACGIH-TLV |
| :--- | :--- | :--- |
| Mineral oil, as Oil Mist | TWA: $5 \mathrm{mg} / \mathrm{m} 3$ | TWA: $5 \mathrm{mg} / \mathrm{m} 3$ |
| Mineral oil, as Oil Mist | ---- | STEL: $10 \mathrm{mg} / \mathrm{m} 3$ |
| Petroleum hydrocarbons | Not established | Not established |
| Corrosion Inhibitor | Not established | Not established |
| Antiwear extreme-pressure oil additive | Not established | Not established |
|  |  |  |
|  |  |  |
|  |  |  |

Engineering Controls: Ventilation controls are not normally required under intended conditions of use. Provide exhaust ventilation or other engineering controls if airbome mist or vapor concentrations exceed permissible exposure limits.
Eye / Face Protection: Safety glasses are recommended. Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material or if handling hot product.
Skin Protection: Use neoprene or nitrile gloves to avoid prolonged or excessive skin contact. Other skin or body protection is normally not required except in emergency or spill conditions. Protective clothing, shoes or boots should be chemical resistant (i.e. neoprene). If handling hot material, use insulated protective clothing.
Respiratory Protection: Normally not required except in emergencies or circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by airpurifying respirators is limited. Use a NIOSH-approved positive-pressure, airsupplied respirator if there is any potential for uncontrolled release, entry into confined spaces, exposure levels are not known, or any other circumstance where air-purifying respirators may not provide adequate protection.
General Hygiene:
Other Information:

Personal protective equipment (PPE) should meet recommended national standards.

## Section 9: PHYSICAL AND CHEMICAL PROPERTIES

| Appearance: | Light amber, low viscosity liquid. |
| :--- | :--- |
| Odor: | Mild cinnamon and petroleum. |
| Odor Threshoid: | Not estabiished. |
| Viscosity: | 25.05 cSt @ 40 deg. C |
|  | 3.90 cSt @ 100 deg. C |
| pH: | Not established. |
| Freezing Point: | Not established. |
| Melting Point: | Not applicable. |
| Boiling Point: | $>450$ deg. F (232.2 deg. C) ASTM D1120 |

| Flash Point: | 282 deg. F (138.9 deg. C) ASTM D93 <br> Upper: Not established. <br> Flammable Limits: |
| :--- | :--- |
|  | Lower: Not established. |
| Autoignition Temperature: | 469.4 deg. F (243 deg. C) |
| Evaporation Rate: | Not established. |
| Vapor Pressure: | 0.810 PSI ASTM D5191 |
| Vapor Density: | Not established. |
| Specific Gravity: | 0.945 g/cm3 @ 60 deg. F ASTM 1298 |
| Solubility in Water: | Insoluble. |
| VOc Content: | Not established. |
| Other Information: | None. |

## Section 10: STABILITY AND REACTIVITY

Stability:
Conditions to Avoid:

Conditions to Avoid:

Incompatible Materials:

## Section 11: TOXICOLOGICAL INFORMATION

ACUTE EFFECTS

Oral:
Dermal:
Inhalation: No toxicity data on product. Not expected to pose an inhalation risk where exposure limits are observed.
Eyes: $\quad$ No toxicity data on product. Components report there is no data available to indicate product or components may be a toxic hazard to the eyes.
Sensitization: Not expected to occur. Highly refined base oils report no skin sensitization in guinea pigs.
Other information: This information is provided based on available data from components or similar materials.

## CHRONIC EFFECTS

Carcinogenicity: This product is not known to contain carcinogenic substances.
Mutagenicity:
Reproductive Effects: This product is not expected to pose a teratogenic risk.
Developmental Effects: This product is not expected to pose a embryotoxic risk.
Other Information: This product has been used for years with no known ill effects.
Section 12: ECOLOGICAL INFORMATION
Ecotoxicity:
Not determined for this product. One component reports it is non-toxic to mussels at $2.18 \mathrm{mg} / \mathrm{L}$ and rainbow trout at $4.0 \mathrm{mg} / \mathrm{L}$ after 60 days. Another component reports LC50 $10-100 \mathrm{mg} / \mathrm{L}$ for freshwater fish; EC50 1-10 $\mathrm{mg} / \mathrm{L}$ for freshwater vertebrates; and EC50 $100-1000 \mathrm{mg} / \mathrm{L}$ for algal inhibition.
Persistence / Degradability: Not determined.
Bioaccumulation: Not determined.
Mobility:

Hazardous Decomposition Byproducts: Carbon dioxide, carbon monoxide, smoke, irritating vapors, unburned hydrocarbons, aldehydes and calcium oxides if combustion is incomplete. Hydrogen chloride is possible if thermal decomposition occurs.
Possibility of Hazardous Reactions: Not expected to occur.

No toxicity data on product. Components report LD50 $>5,000 \mathrm{mg} / \mathrm{kg}$ (rat), low toxicity No toxicity data on product. Components report LD50 $>2,000 \mathrm{mg} / \mathrm{kg}$ (rabbit), low toxicity.
ander normal handling and storage conditions.
Keep away from direct sunlight, extreme heat, hot surfaces, sparks and flame.
Prolonged heating at temperatures above 158 deg. $F$ ( $70 \mathrm{deg} . C$ ), or heating above 392 deg. F ( 200 deg. C) for short periods of time, may result in product decomposition.
Petroleum products tend to soften or swell most natural rubbers.
Oxidizing agents, reducing agents and/or acids.

## Section 15: REGULATORY INFORMATION

TSCA Inventory Listing: The components of this product are on the U.S. TSCA Inventory or are exempt.
CERCLA Hazardous Substances ( 40 CFR 302): This product does not contain any known CERCLA hazardous substances.
SARA 302 Extremely Hazardous Substances (40 CFR 355): This product does not contain greater than 1.0\% ( $0.1 \%$ for carcinogens) of any SARA extremely hazardous substance.
SARA 311/312 Hazardous Chemical inventory Reporting ( 40 CFR 370): This product is subject to SARA chemical inventory reporting if quantity exceeds the minimum threshold level of $10,000 \mathrm{lbs} .(4,540 \mathrm{~kg})$.
SARA Hazard Classifications:
Immediate (acute) health hazard: Yes
Delayed (chronic) health hazard: No
Fire hazard: No
Sudden pressure release hazard: No
Reactivity hazard: No

SARA 313 Toxic Chemical Release Reporting (40 CFR 372): This product does not contain greater than
$1.0 \%$ (greater than $0.1 \%$ for carcinogens) of any toxic chemicals.
Additional information: One or more of the components are on the following global inventories:
Asia-Pacific: ASIA-PAC
Australia: AICS
Canada: DSL
Europe: EINECS, SWISS Giftliste
Japan: ENCS
Korea: ECL
New Zealand: NZloC
Philippines: PICCS
